

*WNQM Press Release*

## **WNQM Upgrades To 50,000 Watts**

On November 19, 1997, WNQM put on the air its new 50,000 Watt state of the art AM transmitter.

The 50,000 Watt transmitter was delivered on November 11, 1997 and the 10,000 Watt transmitter was connected to the system as a back-up.

WNQM chose the Harris Corporation's DX 50, Digital Solid State AM Transmitter. This transmitter combines two leading technologies - digital and solid state - for a level of reliability and on-air sound unsurpassed in any 50,000 Watt AM transmitter.

WNQM uses 1300 KHz in Nashville, TN. 1300 has been on the air continuously since 1947. WNQM airs 24 hours a day over 100 different churches, teachers and ministries based both in middle Tennessee and other parts of the United States.

At 6:30PM to Midnight, Monday through Friday, Host Eliud Trevino presents the best in Hispanic music. Now in its third year - "Radio Melodias" offers a wide variety of music plus news, weather and special guests.

WNQM is the sister station to WWCR (World Wide Christian Radio) which serves Europe, Middle East and Africa on Shortwave from Nashville, Tennessee.

Some limited broadcast time slots are still available. If you've ever considered getting your church or organization involved in reaching Nashville and the surrounding area, or you would just like to receive a free program schedule, now is the time. Call (615) 255-1300 today and ask for George, Adam or John.

*For release November 19, 1997*
