

Press Release

Host of "Ask WWCR" Attends International Shortwave Frequency Coordination Conference

For Immediate Release

12 February 2007

POC: Brady (A. P.) Murray +1 (615) 255-1300

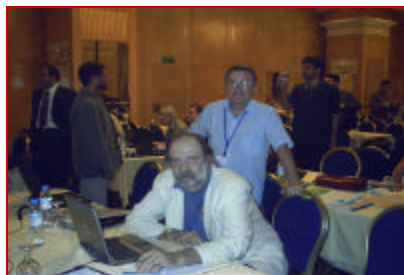

Brady@WWCR.Com

≈ Host of "Ask WWCR", Dr. Jerry Plummer, recently attended the semi-annual frequency conference in Abu Dhabi, the United Arab Emirates. Approximately three-quarters of the shortwave broadcasting transmitters from around the world were present for the one week coordinating conference.

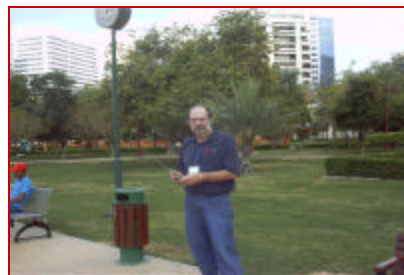

≈ In order to prevent interference from existing in target areas of the broadcasters, each country compares and adjusts its schedule accordingly to solve frequency use problems. WWCR was represented by the Federal Communications Commission and Dr. Plummer, operating in unison and also independently to protect our frequencies from interference. Tom Lucey of the FCC was very instrumental in helping to negotiate with other countries to protect shortwave broadcasting for the United States licensees.

≈ Dr. Plummer makes several trips abroad and stateside each year academically and for WWCR and monitors for the many programs airing on WWCR.

Please note: Some of the pictures are rather large due to their detail, and will take a bit to load. Please be patient.
